

Close to Nature Silviculture with Marteloscope

Workshop

Date: Tuesday, 25 April 2023

Time: 4.30 pm to 6.00 pm (Kyiv), 3.30 pm to 5.00 pm (Bern)

BFH-HAFL in collaboration with Institute of Forestry and Landscape-Park Management in NUBIP (Kyiv) organizes a workshop for key forestry institutions and universities in Ukraine on Close to nature silviculture with Marteloscope. Marteloscopes are a valuable tool for silvicultural close to nature practices and teaching in Switzerland. They provide a factual and understandable way to discuss different silvicultural options and their consequences. During the workshop we will discuss on the features of Marteloscopes, which integrate real inventory data, software for evaluation, and are particularly important for training and education, allowing for practice, questioning, and improvement of silvicultural actions based on quantitative principles.

Language: English

Venue: online in zoom > click [here](#).

Program

4.30 pm (Kyiv time)– Opening and Welcome

Prof. Dr. Ute Seeling, Director of Department of Agricultural, Forestry and Food Sciences, BFH
